Discover the Paragon Advantage

Since 1981, we have been the supplier of choice for premium stainless steel bars in all shapes and sizes. In addition, Paragon provides a full range of capabilities and solutions for a competitive advantage in an ever-changing marketplace.

Improve Cost Performance with Paragon Inventory Management Services

Paragon offers customers experience in developing state-of-the-art inventory control systems and techniques, including:

- Analysis of material needs and usage patterns
- Value Analysis of Inventory Systems
- Just-in-Time Supply Programs
- Inventory and Usage Reports for Continuous Improvements
- Count on Paragon Quality

When applications require comprehensive documentation, Paragon provides manuals, procedures, and work instructions to help deliver performance that you can rely on. Paragon maintains a strong, stable supplier network, providing support from inquiry to delivery, for client operations.

Who we are?
Paragon Steels was established in the year 2000 to meet the growing needs of its customers. We introduce ourselves as one of the leading Stockist and Suppliers of Stainless Steel Bars. We are in this trade since more than 2 decades as Ms. Maryna Metal Corporation founded by Mr. Narasimulu Jallu in the year 1981.

Get the Right Answers Right Away
People make the difference at Paragon. With their in-depth product knowledge and extensive cross-training, the paragon sales and support staff are motivated to deliver fast, accurate information, first call, and every call.
